

Workplace Culture Earns Construction Webcam Provider OxBlue Its 6th Award as a Best and Brightest Company to Work For

ATLANTA, December 23, 2015 – This year has been a winning one for OxBlue, a leader in time-lapse construction cameras and intuitive technologies used by construction professionals to improve efficiency, project management, communication, and marketing. Along with earning *Constructech* magazine's inaugural Connected Hardware Award for its construction cameras and a spot on the *Constructech* 50 list for its mobile apps, OxBlue has wrapped up 2015 with its second consecutive National Best and Brightest™ Companies to Work For Award. OxBlue also received the 2015 Best and Brightest Award for Atlanta – its fourth consecutive – bringing the total to six.

“Recognition for the quality of our workplace environment is as great an honor as awards for our construction cameras and other technology. The two go together. You need to attract and retain talented, motivated people in order to keep improving your products and services. We work hard to do both.”

Chandler McCormack, OxBlue CEO

Best and Brightest award winners are selected based on a rigorous third-party analysis of data collected from an employee survey and a human resources survey. Each survey measures such variables as:

- Compensation and benefits
- Work-life balance
- Employee development, engagement, and retention
- Recognition of individual and team achievements
- Strategic company performance

NATIONAL
 BEST AND
 BRIGHTEST[®]
 COMPANIES
 TO WORK FOR
 WINNER 2015

OxBlue has wrapped up 2015 with its second consecutive National Best and Brightest™ Companies to Work For Award.

OxBlue construction webcams are part of a complete camera system that includes three kinds of time-lapse movie technology (each serving clients' needs for a particular level of expedience); a full-featured construction camera interface and other user software; and proactive technical support for the life cycle of every construction project.

To continuously develop intuitive technologies and services that bring value and efficiency to clients' projects, OxBlue has doubled in size in recent years and continues recruit. To learn about career opportunities visit: <http://oxblue.com/contact/careers/>.
