

Construction Webcam Leader OxBlue Sponsors Children'sSM Healthcare of Atlanta

ATLANTA, June 20, 2014 – OxBlue, whose leading-edge construction cameras and time-lapse videos are used throughout the construction industry to improve project management and communication, spent a day at the ballpark last month in support of Children's Healthcare of Atlanta. One of the nation's largest providers of specialized pediatric medicine, the not-for-profit organization depends heavily on charitable support, and the annual Kauffman Tire Spring Classic, at Turner Field, is one of its biggest fundraising events.

The Spring Classic, established in 2002, brings Georgia Tech's and University of Georgia's rival teams to the home of the Atlanta Braves to battle it out. Regardless of who scores more runs, Children's Healthcare is always the winner. And OxBlue stepped up to the plate as a premium sponsor, helping the event to raise \$170,000 to help fund research and equipment for Children's Neurosciences Program.

"We are proud to be a sponsor. We always look forward to the Spring Classic – it's an opportunity to have a good time with clients and co-workers while contributing to a very good cause."

Chandler McCormack, President of OxBlue

Children'sSM
Healthcare of Atlanta

Children's is ranked among the top pediatric clinical care facilities in the country according to U.S. News & World Report. OxBlue has been a proud sponsor for years.
